

# Swing gate:

## IID-SWM400

**IID-SWM400 has got 380mm stroke, suitable for gate under 3m/leaf, 400kg/wing especially for smaller width swing or folding gates.**

### Features:

- \*Suitable for swing/folding gates, one model for both left and right handed gates.
- \*Maintenance free, it does not require periodic lubrication and is designed to be always ready for use, even in the worst weather conditions
- \*Threaded pole drive, stable performance, maintenance free.
- \*In case of power failure, the gate can be opened and closed manually by release key.
- \*Auto-reverse the gate against obstacles, Soft start and soft stop.
- \* Automatically detects any power failure and activates emergency operation with the backup batteries (optional).
- \*Smart phone app remote control (optional)

### Technical data:

Model	IID-SWM400
Motor Voltage	DC24V
Motor speed (r/min)	2600
Output torque (N.m)	25
Motor power (W)	100
Max Gate weight(kg)	400
Opening time (sec)	18
Max.Gate Width (mm)	3000
Temperature(°C)	-45~ +65
Noise(dB)	<56
